Contact Information Form (continued)

(should be completed prior to conducting a Basic RUAA Survey and/or Comprehensive RUAA)

Draft Definitions (2010 TSWQS Revision)

- Primary contact recreation: Water recreation activities, such as wading by children, swimming, water skiing, diving, tubing, surfing, and whitewater kayaking, canoeing, and rafting, involving a significant risk of ingestion of water.
- Secondary contact recreation 1: Water recreation activities, such as fishing, commercial and recreational boating, and limited body contact incidental to shoreline activity, not involving a significant risk of water ingestion and that commonly occur.
- Secondary contact recreation 2: Water recreation activities, such as fishing, commercial and recreational boating, and limited body contact incidental to shoreline activity, not involving a significant risk of water ingestion but that occur less frequently than for secondary contact recreation 1 due to (1) physical characteristics of the water body and/or (2) limited public access.
- Noncontact recreation: Activities, such as ship and barge traffic, birding, and using hike and bike trails near a water body, not involving a significant risk of water ingestion, and where primary and secondary contact recreation should not occur because of unsafe conditions.

Information from Local Contacts:

1. If any entity answered no, please have them list the reason(s) why:

2. Did the local entities confirm that primary contact recreation activities frequently occur? Yes No
Please describe how often the activities occur? Unknown Never Daily Monthly Yearly
If no, explain: _____

3. Did the local entities confirm that secondary contact recreation 1 activities frequently occur? Yes No
Please describe how often the activities occur? Unknown Never Daily Monthly Yearly
If no, explain: _____

4. Did the local entities confirm that secondary contact recreation 2 activities frequently occur? Yes No
Please describe how often the activities occur? Unknown Never Daily Monthly Yearly
If no, explain: _____

5. Did the local entities confirm that noncontact recreation activities frequently occur? Yes No
Please describe how often the activities occur? Unknown Never Daily Monthly Yearly
If no, explain: _____

6. Do the local entities know if this water body provides substantial flow to a water body with primary contact recreation activities (e.g. swimming in a state/local park) or a bathing beach that is located immediately downstream? Yes No Unknown
If yes, have the local entities provide the name of the water body and a description of the location of the primary contact recreation uses or bathing beach.
Numerous locations in Lake Sam Rayburn
