

The State Soil Conservation Board met on September 6th, 1940.
Members present: Walter W. Cardwell, Chairman, Wm. G. Kennedy, H. K. Fawcett,
J. P. Martin, and C. M. Caraway.

Mr. Paul Walser, State Coordinator, and Mr. Berry Marshall, Assistant State Coordinator, appeared before the Board and discussed in detail with the Board the Developing a Work Plan for a Soil Conservation District; Outline for District Work Plan; Suggested Procedure for State and Federal Agencies in Assisting Soil Conservation Districts when Ready to Begin Field Work; and the Farmer-District Agreement. After a full discussion, a motion by Mr. Caraway, seconded by Mr. Martin, to accept the Developing a Work Plan for a Soil Conservation District; Outline for District Work Plan; Suggested Procedure for State and Federal Agencies in Assisting Soil Conservation Districts when Ready to Begin Field Work; and the Farmer-District Agreement, was carried unanimously.

A motion by Mr. Caraway, seconded by Mr. Fawcett, declaring the election of Supervisors on the basis of returns of elections held in thirty districts on August 31st, 1940, was carried unanimously. A complete tabulation of returns from elections in the thirty districts was ordered attached to and made a part of these minutes.

A petition presented by the landowners residing south of the Double Mountain Fork of the Brazos River in Kent County, said petition accompanied by an affidavit declaring that the number of resident landowners in said territory is less than fifty, and that the petition presented represents more than two-thirds of the landowners residing in said territory and asking that the request of the petitions be granted and that the said territory be annexed to and made a part of the Duck Creek soil Conservation District No. 101. Said petition was considered and on motion by Mr. Martin, seconded by Mr. Kennedy, said petition was approved. The motion carried unanimously.

On motion by Mr. J. P. Martin, seconded by Mr. Fawcett, the Administrator was instructed to contact interested parties in Sabine and San Augustine Counties to determine whether or not sufficient interest exists as would justify the consolidation of San Augustine and Sabine Counties for the creation of a Soil Conservation District.

On motion by Mr. Fawcett, seconded by Mr. Martin, Chairman Walter W. Cardwell, V. C. Marshall, and Garlen Bryant were instructed to appear before the State Board of Control for a Budget Hearing, September 13th, 1940, at Austin. The motion carried unanimously.

On motion by Mr. Caraway, seconded by Mr. Fawcett, it was ordered that the date of elections for the creation of proposed districts be deferred from October 19th to December 7th, 1940. The motion was carried unanimously.

After a careful review, House Bill No. 978, 45th Legislature, known as the Wind Erosion Act, and House Bill No. 20, 46th Legislature, known as the State Soil Conservation Law, it was determined that since House Bill No. 20 provides that any provisions of House Bill No. 20 may, with the State Board cooperating with the governing body of the Wind Erosion District, put into effect any of the provisions of House Bill No. 20 not in conflict with House Bill No. 978, that to create a soil conservation district embracing the same territory as that of a Wind Erosion district created under House Bill No. 978 would be in effect superimposing one governing authority upon another with each authority seeking to gain the same objective, and upon motion by Mr. Caraway, seconded by Mr. Kennedy, it was ordered that in any county organized or to be organized under the Wind Erosion Act, known as House Bill No. 978, that there should not be created a soil conservation district as is provided in House Bill No. 20. The motion carried unanimously.

After a thorough discussion of House Bill No. 20 and House Bill No. 978, the Board expressed its willingness to offer full cooperation with existing Wind Erosion Districts to the extent that said Wind Erosion Districts may receive any benefits which might accrue to said Wind Erosion District in putting into effect any of the provisions of House Bill No. 20 not in conflict with House Bill No. 978.

On motion by Mr. Kennedy, seconded by Mr. Fawcett, it was ordered that the Scurry County petition for a soil conservation district be accepted and approved on condition that at least the part of Borden County lying below the Cap Rock be included as a part of the district. The motion carried unanimously.

On motion by Mr. Kennedy and seconded by Mr. Martin, the following districts were determined to be needed, and tentatively approved subject to the preparation of maps and field notes:

- 116, Borden-Scurry
- 116, Childress County
- 211, Uvalde County
- 523 Brown-Mills
- 526, Baylor-Throokmorton
- 527, Knox-Haskell
- 528, Denton-Wise
- 117, Garza, subject to adjustments
- 311, San Diego-Agua Dulce
- 529 Hood Parker
- 428, Bedias Creek
- Rockwall County
- West Bell County
- San Augustine County, subject to adjustments.

Petitions as results of hearings, Briscoe County, Hale County, Nolan-Aquilla, were disapproved and determined not to be needed.

On motion by Mr. Kennedy that minutes of the previous meeting of State Soil Conservation Board be approved, with the deleting of paragraph with respect to holding soil conservation district elections October 19, 1940. The motion was seconded by Mr. Fawcett and carried unanimously.

There being no further business, the Board was adjourned by Chairman Walter W. Cardwell, subject to call.

Chairman

Secretary

Approved this the ____ day of October, 1940.
