## **Guidelines for FY2016 Proposal for Water Supply Enhancement Project**

### **Project Eligibility Requirements**

- Published Feasibility Study that includes a watershed-specific computer model (per §203.053 Agriculture Code) (see map below and/or TSSWCB website)
- A water conservation need documented in the 2012 State Water Plan (see TWDB website)
- Meet the following WSEP Goal for FY2016:
  - Primary Goal – Enhance domestic and municipal uses, including water for sustaining human life and the life of domestic animals, agricultural and industrial uses, which means processes designed to convert materials of a lower order of value into forms having greater usability, commercial value, and environmental flows.

### **Additional Information**

- Grant funds are competitive and will be prioritized based on water need and water yield (see the TSSWCB *State Water Supply Enhancement Plan* adopted July 28, 2014, posted on the agency website)
- **August 3, 2015** is the deadline for submitting all FY2016 WSEP Project Applications
- A maximum of \$300,000 per year may be requested for an individual project. A one-year project period should be planned.
- Allocation amounts will be awarded based on the amount of funds that can be obligated to landowners based on the project's implementation plan
- Any letters of support for the proposed project from collaborating entities must be received by the proposal submission deadline
- A maximum of only one (1) subbasin from the Feasibility Study may be listed on each application.

### **Contact Information**
