

TEXAS Watershed Steward

The Texas Watershed Steward program is a free, one-day educational workshop designed to help watershed residents improve and protect their water resources by getting involved in local watershed protection and management activities.

September 28, 2011: 8:00am-4pm
TAMU Research Center
1619 Garner Field Road
Uvalde, TX 78801

The workshop will provide an overview of water quality and watershed management in Texas. It will primarily focus on water quality issues in the Leona River as well as efforts by the Texas Institute for Applied Environmental Research, Texas State Soil and Water Conservation Board and area residents to help improve water resources and the health of the surrounding watersheds. For information visit: www.leonariver.org

Pre-register for the workshop by going to:
