

Interested in learning how to keep your septic system functioning properly?

Attend the Homeowner Maintenance of Systems Course for Free!

This course provides a basic understanding of the operational and maintenance activities of a conventional septic system, and explains how activities within the home impact septic systems. Presentations will cover the treatment processes, health and safety considerations, how to inspect, and maintain the system. This course also provides answers to the most frequently asked septic system questions, including when to pumpout a tank and what can or cannot go down the drain.

Course Information:

TUESDAY, MAY 14, 2013. 6:00PM - 8:00PM

Hamilton County Annex Building
101 E. Henry Street
Hamilton, TX 76531

Please RSVP to: 979-458-4185 or
254-386-3832

Cost: Free!

Why Should You Attend?

Septic systems are not flush and forget systems! Therefore maintenance is essential to ensure proper function and longevity of your septic system. Attendees will gain a better understanding of how to maintain their septic system to protect the health of their family and the environment.
