Fredericksburg, TX**

## **Texas Well Owner Network** Pedernales River Watershed

The Texas Well Owner Network (TWON) program is a free, one-day educational training for Texas residents who depend on household wells for their water needs. TWON is for private well owners who want to become familiar with groundwater resources, septic system maintenance, well maintenance, water quality and water treatment. Private well owners are independently responsible for monitoring the quality of their wells. Essentially, they are the operators of their own water system and are responsible for ensuring that their water is safe.

### **Bring your well water samples:**

Well owners may bring water samples to the training to be screened for nitrate, total dissolved solids (TDS) and *E. coli* bacteria for \$5. Pick up approved sample bags and bottles with instructions at the [Gillespie County Extension office](#) or the [Hill Country Underground Water Conservation District office](#).

Bring your samples and payment of \$5 to the training on July 24.

Pre-register for the workshop:
