

Friday, November 20th
8:30 a.m. - 3:30 p.m.
Cuero Municipal Clubhouse
(Rockhouse)
201 Leonard Roy Harmon Dr.
Cuero, TX 77954

Texas Well Owner Network

The Texas Well Owner Network (TWON) program is a free, one-day educational training for Texas residents who depend on household wells for their water needs. TWON is for private well owners who want to become familiar with groundwater resources, septic system maintenance, well maintenance, water quality and water treatment. Private well owners are independently responsible for monitoring the quality of their wells. Essentially, they are the operators of their own water system and are responsible for ensuring that their water is safe.

Bring your well water samples:

Well owners may bring water samples to the training to be screened for nitrate, total dissolved solids (TDS) and *E. coli* bacteria for \$10. Pick up approved sample containers with instructions at the DeWitt County Texas A&M AgriLife Extension office. Bring your samples and payment to the training on November 20th.

The DeWitt County Soil & Water Conservation District and the Pecan Valley Groundwater Conservation District will sponsor lunch.

Pre-register for the workshop:
