11020 Old Corpus Christi Hwy
San Antonio, TX

Texas Well Owner Network

Upper San Antonio River Watershed

The Texas Well Owner Network (TWON) program is a free, one-day educational training for Texas residents who depend on household wells for their water needs. TWON is for private well owners who want to become familiar with groundwater resources, septic system maintenance, well maintenance, water quality and water treatment. Private well owners are independently responsible for monitoring the quality of their wells. Essentially, they are the operators of their own water system and are responsible for ensuring that their water is safe.

Bring your well water samples:

Well owners may bring water samples to the training to be screened for nitrate, total dissolved solids (TDS) and *E. coli* bacteria for \$12. Pick up approved sample containers with instructions at the Bexar, Wilson or Atascosa Counties Texas A&M AgriLife Extension offices. Bring your samples and payment to the training on January 27.

Each participant will receive a free *Well Owner's Guide to Water Supply Handbook*.

Pre-register for the workshop:
