Legal name: Edward Yantis

Daytime phone number: _____

Mailing address: _____

Interviewee selected because (e.g., house adjacent to stream; standing by stream, etc.)

Landowner along Mid-Pecan Bayou near or at MP003

Questions:

1. Are you familiar with this stream? ☒ Yes ☐ No If yes, how many years? 30+ years
If yes, proceed to #2. If no, stop here and do not conduct an interview.
2. Describe the location(s) of the stream reach that interviewee is familiar with:
north and south of 10-mile crossing
3. Have the interviewee characterize the stream flow. Since the interviewer may not be familiar with TCEQ's definitions or distinction between the different water bodies, please refer to the definitions listed below when asking the question.
 - ☐ **Ephemeral:** A stream which flows only during or immediately after a rainfall event, and contains no refuge pools capable of sustaining a viable community of aquatic organisms.
 - ☐ **Intermittent:** A stream which has a period of zero flow for at least one week during most years. Where flow records are available, a stream with a 7Q2 flow of less than 0.1 cubic feet per second is considered intermittent. (Channel contains flowing water for only a portion of the year and surface water may be absent at times.)
 - ☒ **Intermittent w/perennial pools:** An intermittent stream which maintains persistent pools even when flow in the stream is less than 0.1 cubic feet per second. (When not flowing, the water may remain in isolated pools.)
 - ☐ **Perennial:** A stream which flows continuously throughout the year. Perennial streams have 7Q2 equal to or greater than 0.1 cubic feet per second.
4. Have you or your family personally used the stream for recreation? ☒ Yes ☐ No
If yes, proceed to #6. If no, proceed to #5.
5. a. List reasons stream not used.
No swimming because many years ago the stream was very nasty and it still has that reputation. He has also seen what is in the bottom of the stream during times of no flow and will not risk injury.
b. Proceed to #7.
