

LONE STAR HEALTHY STREAMS

<http://lshs.tamu.edu>

The Lone Star Healthy Streams program educates Texas livestock producers and landowners on how to best protect Texas waterways from bacterial contributions associated with livestock production and feral hogs.

October 20, 2020: 1:00pm to 5:00pm

Program to be delivered virtually.

Workshop presentations will focus on watershed health of the Leon River and will discuss basic watershed function, water quality, and specific best management practices that can be implemented to help minimize bacterial contamination originating from beef cattle, horses, and feral hogs. RSVP required.

For more information and to RSVP for the workshop contact Matt Brown at 979-862-8072,
or by going to:

<http://lshs.tamu.edu/workshops>.

The Lone Star Healthy Streams program is funded through a Clean Water Act Section 319(h) grant from the Texas State Soil and Water Conservation Board and the EPA
